**Subject:** Inmate Locator Question

HI,  
I'm not sure whom I should speak with.  
I called a few departments and they were unable to answer my question or refer me to the proper department.

I have a question concerning the Bucks County Inmate Locator.  
<http://inmatelookup.co.bucks.pa.us:8082/IML>

What is your policy with requesting someone's record to be removed from this locator? I can not find any legal information about the inmate locator once a person is released. Will this information be online forever or is there an option to have it removed?

I'm writing in regards to my Father who spent a weekend there in 1995, 17 years ago. He still comes up online and is looking for a job and I'd like to see what his rights are to have this removed. He also shares the same name as my brother. Not to mention the information in his record is incorrect. It states he spent a week incarcerated. He spent a weekend. I don't want something that happened almost 20 years ago to impair his ability to find work.

Please direct me to the proper department that can answer my question.

Thanks in advance,
